

Ve riesgo para Ley de Pensiones

Por Sergio Ramírez
sergio.ramirez@razon.com.mx

LUEGO de que los partidos de oposición impugnaron la reforma a la Ley de Pensiones del Bienestar, el Presidente Andrés Manuel López Obrador advirtió ayer que en la Suprema Corte de Justicia de la Nación (SCJN) hay riesgo de que la "tumben" porque "son capaces de todo".

Destacó que no hay razón para oponerse a esta modificación a la ley, ya que sólo busca beneficios para los trabajadores que se jubilan y requieren una pensión justa y digna al 100 por ciento.

EL DATO **EL PASADO** martes, coordinadores y legisladores de PAN, PRI y PRD presentaron una acción de inconstitucionalidad por la reforma a la ley de pensiones.

"Ayer van a la Corte a pedir que se declare inconstitucional el Fondo de Pensiones. Yo no sé, de veras, no los entiendo; dicen, a ver, se van a robar las Afores... además de

que es falso, es un dinero de los trabajadores para los trabajadores, es pensión para pensión. Si ese dinero se utilizara para construir una autopista, un tren, inclusive un hospital, todavía podían decir: 'por qué usas el dinero de mis pensiones para eso', y más como antes, que se usaba para apapachar a Aguilar Camín y otros. Es para los trabajadores y en beneficio para los trabajadores", dijo.

Ante la pregunta de una reportera sobre si hay riesgo de que los ministros de la Corte "tumben" la Ley de Pensiones del Bienestar, el mandatario no lo descartó.

"Son capaces de todo, yo tengo muy mala experiencia; es que no están para defender a los trabajadores, no defienden al pueblo, están al servicio de las minorías, son parte de la asociación delictuosa que dominaba México", denunció.

Durante la conferencia de prensa matutina, dijo que ya se tiene calculado el número de los primeros beneficiarios de la reforma, los cuales empezarían a recibir recursos del nuevo fondo de pensiones a partir del 1 de julio.

El jefe del Ejecutivo federal lanzó el reto a la Suprema Corte para tomar la decisión correcta y en favor de los trabajadores.

Asimismo, informó que las Afores ya empezaron a entregar parte de los 40 mil millones de pesos que tienen de fondos no reclamados de los trabajadores, y señaló que no ha habido resistencia por parte de las empresas.
